SPRINT 5

Start: 11/01/2023   End: 24/01/2023

Sprint Goal:

Start designing and developing MVP chess prototype (simple).

Sprint Work:

1. I want to drag and drop chess pieces to make my moves on a graphical interface so that the app is more interactive and entertaining.

ITEM 1 TASKS:

- Front end development of chess board.
- Create sketches/storyboard for web page design and interaction.
- Create necessary UML diagrams.
- Create use-case scenarios.
- Test functionality against use-cases when implemented.

Additional Notes:
- Kanban board: https://trello.com/b/TubtD2KW/chessai
- GitHub repo: https://github.com/ORG4N/ChessAI

(RED ITEMS PUSHED TO SPRINT 6)
